ITServe Expanding its Horizons & Now is the time for INDIA!

It's a new page in the history of ITServe Alliance, having established its overseas office in India, where the whole world is trying to have its presence in IT Space outside of the United States. We are proud of this moment, it took almost 12 years to be where we are today. This will undoubtedly help us to expand and create more business opportunities for member companies on both sides of Ailes.

We thank the team who have worked tirelessly through all the bureautic processes over the last many months and finally made this day possible. ITServe thanks its members who could make it to this event within short notice, and your presence has made a positive difference. We hope to work with the entrepreneurs on both sides of the planet, create more opportunities and serve the communities across these two continents.
